

Optical Tracking technology

Our technology

Utilizing our expertise in craniofacial surgery combined with a maxillo-facial navigation system, SimEx is the most accurate, user friendly, and versatile Augmented Reality technology in the marketplace.

We strive to bring innovative solutions to the current and future challenges of dental education.

Our R&D team follows closely the newest developments in the world of technology, and applies them to the dental educational market.

Why **SimEx**[®] is better than others

Item	<i>SimEx</i>	<i>Competitor</i>
